AIRPORT STAFF TRAINED

WHAT DO WE DO?

Airports play major role in disaster response and humanitarian assistance situations. Airports provide a fast mode of transportation of relief aid. After a disaster caused by natural hazards, like earthquakes, cyclones, floods or hurricanes, the nearest airport can quickly become overwhelmed due to the large volume of incoming relief supplies. The GARD program is a public-private partnership to prepare airports to better respond to disaster relief surge, build up capacity by training local people, and enable local disaster relief agencies to better plan and coordinate relief efforts.

Flagship public-private partnership to support airport readiness

Training of airport staff & government officials on how to manage an influx of relief goods and personnel

Assessment of airport capacities to manage the influx of humanitarian aid and personnel

HOW DO WE DO IT?

Support airport staff on-site to identify potential bottlenecks, such as storage capacity and plans for contingency measures. Trained participants will have a hands-on experience to produce an assessment of the airport and develop a clear action plan to increase its response capacity in case of a disaster.

GARD SUPPORTS THE SUSTAINABLE DEVELOPMENT GOALS

GARD TRAINED AIRPORTS

Country	IATA	Year
Armenia	EVN	2013
Bangladesh	CGP, DAC	2011
